

## What's the trick to managing multiple LPR service providers?

The fully-automated LPR assignment management solution

### Watch Your LPR Assignment Management Worries Disappear.

Do you wish there was a way you could use multiple service providers in your LPR assignment strategy without the significant hassle, time and cost that's normally involved managing the process?

The solution is about to appear before your very eyes.

**LPRkcloud™** enables financial institutions to easily and affordably utilize multiple LPR service providers in their asset recovery efforts.

Previously it wasn't feasible for lenders to engage multiple service providers because of the high time and cost requirements associated with assignment management. To solve this challenge, MBSi Capital has leveraged its integration with industry leading LPR service providers such as MVTrac, PLS, Plate Locate and one other to introduce LPRkcloud. The use of LPRkcloud can result in higher recovery rates and lower management costs for financial institutions and service providers alike.

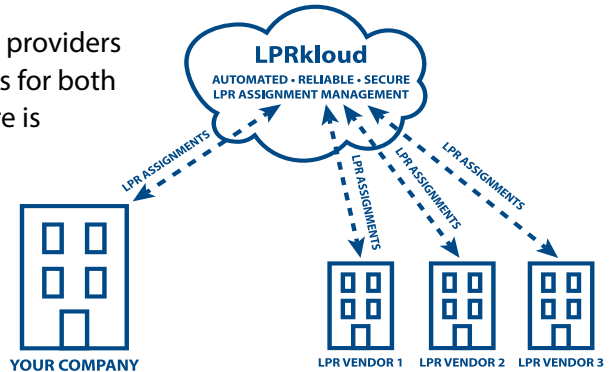

In partnership with

## The Time and Cost Savings Are No Illusion.

Managing LPR assignments among multiple service providers is normally an expensive and labor-intensive process for both financial institutions and LPR service providers. There is also a greater chance for error when managing this process manually. The magic of LPRcloud is how it automates the creation and status management of LPR assignments across multiple LPR service providers. The result is substantial time and cost savings for your company.

By hosting recovery data in the secure LPRcloud, assignment creation and status updates are automated across multiple LPR service providers. If an assignment is updated, LPRcloud automatically and securely updates the assignment across all vendors in real time, or removes it entirely from the system if the assignment is closed or recovered. Instead of you having to constantly monitor your LPR assignments manually for status updates and recoveries from multiple service providers, LPRcloud magically does it all for you.

### KEY PRODUCT FEATURES:

- **Automated assignment placement for one or multiple LPR Vendors**
- **No manual LPR assignment placement**
- **No manual LPR assignment management**
- **Automated assignment status management across all related LPR assignments**
- **Gives you peace of mind knowing your LPR assignment statuses are managed properly**

## We See an Affordable LPR Assignment Management Solution In Your Future.

It doesn't take a crystal ball to see how LPRcloud can save you considerable, time, cost and headaches managing your LPR assignments among multiple vendors. Now it's easy for financial institutions to expand their LPR assignment management strategies within their budgets — LPRcloud makes implementing LPR with multiple providers a realistic option by breaking down the barrier to entry and mitigating the cost of assignment management.
